Review of the quality of training of students at Lviv National Musical Academy named after Mykola Lysenko under the Bachelor's program of Musical Arts

The quality of training of modern musicians and teachers is directly related to the general processes of integration into the international content. An important factor of engaging the world values in the field of musical creativity and pedagogical excellence is participation in international projects and exchange of the best creative ideas.

The acquaintance with the Bachelor's program of Musical Arts at *Lviv National Musical Academy* began as part of the cooperation of our *International Menuhin Music Academy* more than 25 years ago, when free master classes for students (violinists, violists and cellists) of your Academy were given on the basis of our famous School. During this cooperation, many graduates of your Bachelor's program continued their studies at our academy and became participants in international festivals and performer competitions. In particular, Veronika Radenko, Anna Kolotylna, Vasyl Zatsikha, Valentyna Pryshliak and many others. Along with training of students, there is also a constant exchange of creative projects and master classes between our educational institutions. For example, from 13 April to 22 April 2019, on the basis of *Lviv Musical Academy*, within the framework of *Alberto Lysy International Festival*, the annual master classes were started given by leading professors of the *International Menuhin Music Academy*: O. Kaskiv, I. Keler, I. Vukčević, P. de Naverán, D. Mitnitskyi, O. Sitkovetska and A. Oprean with Lviv pianists, violinists, violists and cellists, Musical Arts Bachelor's degree candidates.

It has been confirmed that training of students at *Lviv National Musical Academy* under the Musical Art Bachelor's program contributes to the training of highly qualified specialists competitive in the European labour market in the field of musical arts.

As a result of our close and creative cooperation, we can confidently state that *Lviv National Musical Academy* named after Mykola Lysenko successfully carries on the best traditions of professional music education.
